

What to Know Before Coming to an Appointment at Women's Health Center during COVID-19

We are committed to keeping our patients and staff as safe as possible in our office environment. We require the following from our patients:

1. Please bring a mask or face covering with you, which must be worn while you are in our building and office. Please note that your face covering MUST cover both nose and mouth at ALL times.
2. Plastic face shields are not sufficient protection to protect the wearer and others from possible virus spread. If you wear a shield into the office, we will ask you to also wear a face mask (which we will provide if needed) while you are here.
3. **No children or guests are permitted.** For limited appointment types one guest is permitted, but this will be discussed with our patient well in advance of the appointment. No exceptions, please.
4. Please do not enter the building if you have ANY of the following COVID-19 symptoms:
 - Fever greater than 100.4
 - New cough
 - New shortness of breath
 - New loss of taste or smell

Women's Health Center has the right to reschedule appointments for any patient who is unable to comply with the requirements set forth by the OHA and CDC that we are required to follow.

We so appreciate everyone doing their part to help keep our community safe. If you have any questions or concerns, please do not hesitate to reach out to us! 541-479-8363
